06-12	100% to 185%	26,356
13-18	100% to 185%	16,533
Total		54,905

2005 State Fiscal Year-to-Date Enrollment by Aid Category

State Fiscal Year is defined as the period between July 1 and June 30 of each fiscal year.

Cancer treatment program goes into effect

The Oklahoma Breast and Cervical Cancer Treatment Program (BCCTP) went into effect on Jan. 1, 2005, with eligible women receiving full Medicaid benefits for the duration of their cancer treatment. In order to become eligible for Medicaid benefits, women must be screened for breast or cervical cancer under the Breast and Cervical Cancer Early Detection Program (BCCEDP) and found to be in need of treatment for either breast or cervical cancer. The BCCEDP was established under Title XV of the Public Health Service Act.

Women, who believe they are eligible for the program and would like to be screened, should first ask their provider if he or she is a certified screening provider under any of the three BCCEDP programs. Women may also call the grantees at the following numbers to locate a screening clinic near them.

- Oklahoma State Health Department 866-550-5585 (toll-free)
- Cherokee Nation 877-458-4491 (toll-free) or 918-458-4491
- Kaw Nation of Oklahoma 580-362-1039 ext. 228

Once an eligible woman is screened by a deemed provider and found to be in need of treatment, she will then complete an application for the treatment program. The Oklahoma Department of Human Services will determine if the applicant is otherwise eligible for basic Medicaid. If she is not; her application will be processed through the Breast and Cervical Cancer Treatment Program for Medicaid services.

The OHCA will provide services for diagnosis and treatment beyond the initial screen. Women in this program, who receive further diagnostic testing and are found to not have cancer or pre-cancerous conditions will lose their Medicaid eligibility. However, if a woman does receive a diagnosis of cancer or a pre-cancerous condition, she will be enrolled in **SoonerCare**, the state's partially capitated, managed care Medicaid program. The woman will choose a primary care provider and receive needed specialty referrals through the primary care provider. In addition, she will have available care management services, transportation through SoonerRide, the **SoonerCare** Helpline and Nurse Advice Line. Eligible women will continue to receive services through **SoonerCare** until they are determined by their provider to no longer be in need of treatment for their cancer.
